NEA JOURNAL

VOLUME XLI JANUARY—DECEMBER

1952

The JOURNAL serves the entire membership of the National Education Association. It has the largest circulation of any professional journal in the world. As the organ of the National Education Association its policy is determined by the resolutions and activities of the Association itself. It aims to give an over-all view of education. It emphasizes pioneer undertakings. It seeks to encourage among educators a broader interest in the larger problems of education and life.

Persons binding their copies of the JOURNAL into an annual volume will use this sheet for a title page. The 1952 volume includes nine issues, one for each month except June, July, and August.

Executive officers of the National Education Association—Sarah C. Caldwell, president; William G. Carr, executive secretary; Gertrude E. McComb, treasurer; A. C. Flora, chairman, trustees. The JOURNAL is the official organ of the Association—Joy Elmer Morgan, editor; Karl Berns, business manager; Mildred Sandison Fenner, managing editor; Ruth Coyner Little, Walter A. Graves, assistant editors; Erle Prior, art editor; Mary Wibel, advertising manager; W. L. Christian, circulation manager; Ruth Skewes Ford, production manager.

GOALS

for the CENTENNIAL ACTION PROGRAM *of the* UNITED TEACHING PROFESSION 1951—1957

The Centennial Action Program was unanimously adopted by the Representative Assembly of the NEA at San Francisco on July 6, 1951. Its goals are:

[1] An active democratic local education association in every community.

[2] A stronger and more effective state education association in every state.

[3] A larger and more effective National Education Association.

[4] Unified dues—a single fee covering local, state, national, and world services—*collected by the local.*

[5] 100% membership enrolment in local, state, and national professional organizations.

[6] Unified committees—the chairman of local and state committees serving as consultants to central national committees.

[7] A Future Teachers of America Chapter in every institution preparing teachers.

[8] A professionally prepared and competent person in every school position.

[9] A strong, adequately staffed state department of education in each state and a more adequate federal education agency.

[10] An adequate professional salary for all members.

[11] For all educational personnel—professional security guaranteed by tenure legislation, sabbatical and sick leave, and an adequate retirement income for old age.

[12] Reasonable class size and equitable distribution of the teaching load.

[13] Units of school administration large enough to provide efficient and adequate elementary and secondary educational opportunities.

[14] Adequate educational opportunity for every child and youth.

[15] Equalization and expansion of educational opportunity including needed state and national financing.

[16] A safe, healthful, and wholesome community environment for every child and youth.

[17] Adequately informed lay support of public education.

[18] An able, public-spirited board of education in every community.

[19] An effective World Organization of the Teaching Profession.

[20] A more effective United Nations Educational, Scientific and Cultural Organization.

[21] [Additional goal approved by NEA Executive Committee.] More effective cooperation between adult, higher, secondary, and elementary education with increasing participation by college and university personnel in the work of the united profession.

General Favor
